We are pleased to provide this Level List as a reference for your planning. We hope that you will share with us your experiences using our books. Your input on the currently assigned levels is always welcome.

Reading Recovery is a registered trademark of The Ohio State University. The complete Reading Recovery book list includes books from numerous publishers, since the premise of the program is that children can be provided with a wide range of texts. One publisher's book list alone is not sufficient to implement a Reading Recovery program. Levels are subject to change as they are periodically tested and reevaluated.
